

# SRUJAN LAKKU

GenAI & Agentic AI Developer | LangChain · LangGraph · FastAPI · RAG · Multi-Agent Systems  
Hyderabad, India • +91 8977428152 • lakkusrujan@gmail.com • github.com/srujanlaku • linkedin.com/in/srujan-laku

## PROFESSIONAL SUMMARY

GenAI and Agentic AI Developer with production experience designing and deploying autonomous AI systems using LLMs, LangChain, LangGraph, and FastAPI. Specializes in multi-agent orchestration, RAG pipelines, tool-calling agents, and scalable AI backend services. Adept at architecting modular, production-ready GenAI systems enabling intelligent automation, adaptive workflow execution, and contextual reasoning at scale — across the full lifecycle from prompt engineering and agent design to async API integration and deployment-ready infrastructure.

## TECHNICAL SKILLS

**GenAI & Agents:** LLMs, LangChain, LangGraph, Multi-Agent Systems, Agentic AI, Prompt Engineering, Tool Calling, RAG, Hugging Face, Multi-Modal AI

**Backend & APIs:** Python, FastAPI, REST APIs, Async Python, WebSockets, Microservices Architecture

**Databases:** MongoDB, PostgreSQL, MySQL, FAISS, ChromaDB (Vector Databases), Semantic Retrieval

**DevOps & Tools:** Docker, Git, GitHub, VS Code, Conda, venv, Cloud Computing, Environment-based Config

**ML & Deep Learning:** Scikit-learn, NumPy, Pandas, ANN, CNN, RNN, Autoencoders, Attention Mechanisms, TensorFlow

## PROFESSIONAL EXPERIENCE

**Agentic AI Developer** | Zennial Pro Pvt Ltd

*Oct 2025 – Present*

- Architected production-grade Agentic AI systems for intelligent automation and multi-step workflow orchestration using LangGraph and LangChain, enabling dynamic agent-to-agent communication.
- Engineered multi-agent pipelines with contextual reasoning, tool-calling capabilities, and modular orchestration layers using environment-based configuration and clean service boundaries.
- Developed scalable FastAPI backend services and async REST APIs for real-time AI communication, high-throughput LLM inference, and session-aware workflow management.
- Implemented end-to-end RAG pipelines integrating vector store retrieval, embedding models, and LLM inference for contextual, knowledge-grounded AI responses.
- Designed Prompt Engineering frameworks and system instruction templates for LLM task decomposition, structured output generation, and reliable instruction following.

**AIML Intern** | Intellipaath

*Jun 2024 – Aug 2025*

- Built end-to-end ML workflows covering preprocessing, feature engineering, model training, and evaluation using Scikit-learn, NumPy, and Pandas for intelligent predictive modeling.
- Implemented supervised/unsupervised models (Logistic Regression, Decision Trees) and gained hands-on exposure to ANN, CNN, RNN, Autoencoders, and Attention Mechanisms.

## KEY PROJECTS

**AI Interview Agent** — Python · FastAPI · LangGraph · LangChain · LLMs · PostgreSQL

- Built a LangGraph-based multi-agent AI Interviewer with autonomous agents for question generation, code evaluation, contextual follow-ups, and adaptive soft-skill assessment workflows.
- Designed stateful agent workflows with adaptive interview paths, dynamic difficulty scaling, and session-persistent evaluation pipelines via FastAPI.

**Tattva – The AI Tutor** — Python · FastAPI · LangChain · LLMs · Prompt Engineering · RAG

- Developed an AI-powered tutoring system with adaptive learning workflows, context-aware RAG pipelines, and modular GenAI orchestration for personalized education delivery.
- Architected modular GenAI orchestration layer with clean service boundaries supporting future multi-agent and knowledge retrieval expansion.

**Personal Knowledge Brain** — Python · LangChain · RAG · LLMs · Vector Search · Semantic Retrieval

- Engineered a semantic knowledge retrieval system using RAG pipelines with embedding-based vector search for contextual querying and AI-assisted memory management.
- Designed extensible architecture supporting pluggable embedding models, multiple vector store backends, and scalable AI knowledge orchestration.

## EDUCATION & CERTIFICATIONS

**B.Tech, Computer Science & Engineering** — Malla Reddy University | CGPA: 8.0

Certifications: SQL Course, Data Science, Python Training – Intellipaath | Agile Explorer – IBM | AI for Everyone – Coursera
